

Chapter 4

SUMMARY, CONCLUSIONS, AND RECOMMENDATIONS

This chapter summarizes the study's findings and the conclusions to the problems concerned with the development of the proposed <your system> and provides recommendations on its proper implementations and further developments.

Summary

This research aims to design and develop <title of your project> that will serve as <purpose/objective of your project>.

Furthermore, this study aims to achieve the following:

1. Your objective 1
2. Your objective 2
3. Your objective 3
4. Your objective 4

This project study utilized <Tools used> as the IDE and Java as the programming language to implement the different features of the proposed system using <Software methodology used>. The <software methodology of your choice> has the following phases:

- a. Phase 1
- b. Phase 2
- c. Phase 3

d. Phase 4

e. Phase 5

f. Phase 6

Findings

1. Your findings #1 //Aligned to your objective #1
2. Your findings #2 //Aligned to your objective #2
3. Your findings #3 //Aligned to your objective #3
4. Your findings #4 //Aligned to your objective \$4

Conclusions

Based on the findings, the following conclusions are drawn:

1. Conclusion #1 //Aligned to your findings #1
2. Conclusion #2 //Aligned to your findings #2
3. Conclusion #3 //Aligned to your findings #3
4. Conclusion #4 //Aligned to your findings #4

Recommendations

The following were the recommendations for the implementation and further development of the system:

1. Recommendation #1
2. Recommendation #2
3. Recommendation #3
